

## Disinfectant Preparation Sheet

*The following procedures need to be completed by the client prior to Horizon Pest Control Service Treatment.*

### Disinfectant treatment

- Please be prepared to leave on day of service for 2 hours
- All pets / animals must be removed from home
- If aquatic life is present, please cover aquarium & unplug air supply to not contaminate water (Our technician will avoid the room that the aquarium is in).

### Before Treatment

- Place food / dry goods in sealed containers or Ziploc bags.
- Please have baseboards and walls clear for treatment.
- Please remove all clutter from the floor (clothing, cardboard boxes, plastic bags, etc.)
- All essential paper items should be stored away.
- All non-essential paper items should be thrown away or recycled.
- All flat surfaces (tables, counters, etc.) must be cleared out.

### After Treatment

- **Do not** enter for 2 hours after the treatment is complete
  - Upon returning to your home, please be prepared to wipe down counters / food prep areas with water
  - May be necessary to open doors and windows in confined spaces to allow air flow
  - Expect some product residue on surfaces and equipment i.e. windows, brass, mirrors
  - Please note this product will only kill viruses present during the application
- Any questions, please reach out to our office team at 201-447-2530
