

INDIAN MEAL MOTH AND PANTRY PEST PREPARATION LETTER

Dear Client,

Your home has been inspected and Indian Meal Moths/ Stored Product Pests have been found. The following items need to be done prior to treatment:

- 1) **Remove all items from every kitchen cupboard, drawer and shelf. This includes china, cabinets and shelves containing cookbooks. Failure to empty out every cupboard, drawer and shelf will VOID any guarantee unless prior arrangements have been made with the Technician or office.**
- 2) Place dishes, silverware, pots and pans in another room, either in plastic bags or covered with sheets. Any food removed from the cabinets must either be in sealed containers or placed in the refrigerator.
- 3) Remove all products such as grains, flour, meal products, ie; like dry dog food, dry cat food, and bird seed and should all be inspected and thrown away if contaminated. If not, all products need to be stored inside plastic containers.
- 4) Remove all items from these areas, clean with an applicable cleaner for those surfaces and vacuum up with a crack and crevice attachment; this includes all shelves, corners and molding.
- 5) Remove all pets from the treatment area. Cover all aquariums and unplug their air pumps. We are not responsible for your fish.
- 6) Please remain out of the area for approximately 4 hours to allow surfaces to dry before putting items away. Please do not wipe down or use a cleaning agent after treatment this may cause an adverse effect on the treatment.

Thank you for your cooperation.
