To Whom It May Concern:

This is a letter of referral recommending Horizon Pest Control. As a Food Processing Facility we require strict control and immediate response to pest issues in and around our facility. Horizon offers uncompromising attention to detail and takes the burden of pest management away from us so we can concentrate on the business at hand. We have relied on them for many years and can expect consistent and knowledgeable service. Communication between Horizon and our facility is unparalleled to any other relationship I professionally have had with any other pest control company in my food safety career.

What I appreciate most about Horizon is their commitment to customer satisfaction. They take the time to understand the specific needs of their clients and tailor their services accordingly. Their staff is courteous, respectful, and always available to answer any questions or concerns that their clients may have. I can wholeheartedly recommend them to anyone who is interested in having an extremely effective, responsive, and reliable pest management company handling their pest control issues.

If you have any questions or require further information, please do not hesitate to contact me.

Sincerely,

Richard Crawford | Head of Regulatory and Food Safety Quality Assurance
