RE: Horizon Pest Control

To whom it may concern:

We have used Horizon Pest Control for over 10 years at our cafes at the Statue of Liberty & Ellis Island, and I can highly recommend their service. They are extremely responsive to our needs and I have never met anyone who knows more about pests from the type and species of different type of roaches to rats and the best methods to eliminate them. I have personally worked closely with the service technician as well as their supervisor to eliminate our pests.

As a food handling facility, we require strict control and immediate response to our pest issues. Horizon has followed our Integrated Pest Management (IPM) system and offer immediate response to eliminate pests. Horizon has taken responsibility for our facility, which allows us to concentrate on our business.

I can wholeheartedly recommend them to anyone who is interested in having an extremely effective, responsive and reliable pest management company handling their pest control issues.

Sincerely,

Bradford A Hill
President
